PREREQUISITES/COREQUISITES

Some courses offered have required Prerequisites and/or Corequisites. Definitions of both requirements can be found at the beginning of the course descriptions in the 2011 - 2012 General Catalog. Each prerequisite and corequisite is printed in bold with the course description, also located in the back section of the catalog. Enrolling into a class without the appropriate pre/corequisite will result in the **DELETION OF THIS COURSE** from your schedule.

Students registering for hybrid courses run the risk of being dropped if it is found that the mandatory on-campus meetings conflict with other courses on their schedule.

Some traditional daytime and evening courses may require supplemental work to be completed online.

Please refer to your registration statement or the online schedule for class locations.

MANDATORY ACTIVITIES

Students taking Internet (sections 41-60, 410PT-600PT, and/or 41WB-60WB) or Hybrid (section 31-40) classes MUST complete the following mandatory activities by January 19, 2012.
