Agenda
Thursday, October 13
8:00 a.m. - Classes begin based on course description

Friday, October 14
8:00 a.m. - Classes begin based on course description
1:00 p.m. - Vendor Set-Up
5:00 p.m. - Registration/Check-In, FHEC Main Lobby

Saturday, October 15
7:30 a.m. - Registration/Check-In, FHEC Main Lobby
8:00 a.m. - Vendors Open
(refreshments courtesy Burke County Firefighter’s Association)
8:00 a.m. - Classes begin based on course description
12:00 p.m. - Lunch Provided
(lunch courtesy Burke County Firefighter’s Association)
1:00 p.m. - Classes begin based on course description

Sunday, October 16
7:30 a.m. - Registration/Check-In, FHEC Main Lobby
8:00 a.m. - Vendors Open (refreshments provided)
8:00 a.m. - Classes begin based on course description
12:00 p.m. - Lunch
1:00 p.m. - Classes begin based on course description

Western Piedmont Community College, as an Equal Opportunity Institution, complies with applicable federal and state laws prohibiting discrimination on the basis of race, sex, religion, age, ethnic origin, association, or disability. It is the policy of WPCC to make academic accommodations for students with disabilities in accordance with federal and state mandates and the College's commitment to equal educational opportunities. Any student with a documented disability who needs accommodations (e.g. in seating placement, testing, interpreters, note takers, etc.) should seek assistance from the Office of Disability Services, Room 135 or 136, meldbrand Hall (828) 448-3153 or (828) 446-3154. Inquiries concerning Federal Title IX, Section 504, and related laws may be addressed to the Director of Human Resources, 1001 Burkemont Avenue, Morganton, NC 28655 or telephone (828) 438-6000.

2,500 copies of this document were produced at a cost of $1800.00 or 72¢ per copy.

WPCC Emergency Services Training Center - August, 2016

(828) 448-6708
**Dedication & Memorial**

**Clint Patton**

Clint started his career as a junior fireman with West End Volunteer Fire Department, later becoming a member where he served as Training Officer and in other leadership positions. On his 18th birthday, he started as a career firefighter with the City of Morganton. During his tenure there, he graduated from Western Piedmont Community College with an Associate of Science Degree in Fire Science along with other certifications and also completing specialized training programs. Clint left the City of Morganton to become the Deputy Fire Marshal for Burke County where he was tasked with conducting fire inspections, fire investigations, hazardous materials mitigation, and he served as a liaison to the fire departments within Burke County.

After serving as Deputy Fire Marshal for approximately 8 years, Clint was promoted to Director of Emergency Services, serving in this position for 20 years until his retirement. Under his leadership, Burke County progressed in many areas related to emergency services. Some of the programs that were implemented included the following: collaborating with all fire departments in Burke County to establish computer-aided dispatching; initialization and implementation of 911 and county mapping; coordinating fire protection coverage for areas of Burke County that did not have fire department coverage; acquiring and putting in service the first Air Van that served all fire, rescue, and other related calls that require additional breathing air resources; implementation of EMD (Emergency Medical Dispatch); implementation of having County Fire Marshals as sworn officers; and implementation of a countywide hazardous materials team that utilized personnel from both municipal and volunteer fire departments.

Clint completed numerous training courses during his years in emergency services and shared this knowledge with others by serving as an adjunct instructor for WPCC and other colleges across the state and other emergency services organizations. Clint credits his success during his career to the many people he worked alongside and to the opportunities afforded to him by WPCC in pursuing his formal education. Clint spends time now pursuing hobbies that include making fishing lures, furniture repairs, and raising cattle on his small farm. Throughout all the time in Clint’s career, his proudest accomplishment is his son who somewhat mirrors his father’s career in emergency services by serving as a Deputy for BCSO. We are grateful to Clint for the leadership he has provided through the years, his service, loyalty, and the opportunities and accomplishments he helped to provide during his career.

**Virgil “Jug” Barrier**

On December 12th, 2015, Burke County Fire, Rescue and EMS community lost a brother and friend. Virgil “Jug” Barrier passed away after a short illness. Virgil had been involved with emergency services for over 25 years. He was a charter member of the Jonas Ridge Fire Department and had served from 1989 - 2015. He had served in various positions including chief of the department for a 10 year period. Virgil was also charter member of the Burke County Search and Rescue Team since the late 1980’s where he served as the president of the team for 10 years. He was involved with the state search and rescue team, serving as an advisor and treasurer for 7 years. Virgil was also member of the Burke County Rescue Squad. Virgil knew Linville Gorge probably better than anyone. He loved the woods, and he loved helping people. Virgil will be missed by all.
Firefighter Certification Courses

Fire Department Orientation & Safety (*Full PPE Required*)
16 Hours
Students will be exposed to the organizational structure and position roles of the fire and rescue service. Services provided and laws and regulations governing department functions will be covered. Various benefits and guidelines pertaining to departments and its members will be discussed. Students will become aware of the alarming rate at which fire and rescue personnel are injured or killed while performing duties. Case studies documenting incidents will be utilized to emphasize that safety is a number one priority in emergency services.
Saturday, 8:00 a.m.-5:00 p.m.; Sunday, 8:00 a.m.-5:00 p.m.
Instructor: Staff

Fire Alarms & Communications
16 Hours
This course will prepare students to efficiently understand and effectively manage both telephone calls for assistance and the use of 2 way communication systems employed by the fire service. Various types of alarm systems will be demonstrated to include the types of detectors utilized within those systems.
Saturday & Sunday, 8:00 a.m.-5:00 p.m.
Instructor: Brandon Edwards

Fire Behavior
12 Hours
Fire behavior forms the basis of many operations on the fire scene. A basic understanding of the chemical and physical nature of fire is required for safe and effective fire control. Participants will become familiar with terminology; the fire triangle and tetrahedron; the stages of fire and its conditions, signs, and indicators; and the transfer of heat.
Friday, 6:00-10:00 p.m.; Saturday, 8:00 a.m.-5:00 p.m.
Instructor: G. Winfield Abee

Personal Protective Equipment (*Full PPE Required Including SCBA*)
20 Hours
This course will provide the firefighter with knowledge and functionality of each piece of the PPE ensemble including SCBA as well as donning, doffing, care and maintenance. Information will cover hazardous elements and environments firefighters must face.
Friday, 6:00-10:00 p.m.; Saturday, 8:00 a.m.-5:00 p.m.; Sunday, 8:00 a.m.-5:00 p.m.
Instructor: Kevin Woody

Forcible Entry (*Full PPE Required*)
14 Hours
Students participating in this course will be able to identify the different construction types of doors and windows as well as various locks and lock assemblies. Students will learn the proper techniques to force entry through these doors, windows, and locks using various tools carried on typical fire apparatus. Care and maintenance of forcible entry tools will also be covered. Practical exercise on Sunday will be held off campus.
Saturday, 9:00 a.m.-5:00 p.m.; Sunday, 8:00 a.m.-4:00 p.m.
Instructor: Jon Lowdermilk

Ventilation (*Full PPE With SCBA Required*)
20 Hours
The principles and types of ventilation including vertical, horizontal, natural, and mechanical will be introduced during this course. The need for automatic venting devices as well as ventilation of below grade structures and high rise buildings will be explained to give students a better understanding of the importance of ventilation during fire operations. Considerations in ventilating a building will be explored and students will be given opportunities to apply these principles during practical evolutions. Practical exercises on Sunday will be held off campus.
Friday, 6:00-10:00 p.m.; Saturday, 8:00 a.m.-5:00 p.m.; Sunday, 8:00 a.m.-5:00 p.m.
Instructors: Marnie Price, Doug Price

Portable Extinguishers (*Full PPE Required*)
8 Hours
Proper use of extinguishers can enable personnel to put out a small fire before it becomes life-threatening. Students will learn to identify the classes of fire and how to select the proper extinguishers to use for each fire class. Inspection, maintenance, and hydrostatic testing procedures will be explained. Practical exercises will be held off-campus.
Sunday 8:00 a.m.-5:00 p.m.
Instructor: G. Winfield Abee

Ropes
12 Hours
Ropes serve a vital function in firefighting. This course covers various types, use, care and maintenance of fire service rope. Students will also learn various types of knots and their uses in firefighting applications.
Friday, 6:00-10:00 p.m.; Saturday, 8:00 a.m.-5:00 p.m.
Instructor: Robin Triplett
LADDERS (*Full PPE Required*)  
16 Hours  
Ground ladders are an essential part of fire ground operations. This course will provide students with correct ladder identification, terminology, applications, carries, raises, care and maintenance. Working individually and as a group, students will perform various carries, raises and lowers. Students will also perform various hose applications and victim/firefighter rescue techniques utilizing ground ladders.

Saturday & Sunday 8:00 a.m.-5:00 p.m.  
Instructor: Matt Rogers

FIRE HOSE STREAMS & APPLIANCES (*Full PPE is required*)  
20 Hours  
This course will cover the use, care and maintenance of various types and styles of fire service hose, appliances and nozzles as outlined in NFPA 1962. Students will demonstrate proper hose lays for supply and attack operations and participate in proper nozzle selection based on different fire scenarios. Proper fire stream production will also be demonstrated as well as various types of hose loads and finishes. Practical exercises on Sunday will be held off campus.

Friday, 6:00-10:00 p.m.; Saturday 8:00 a.m.-5:00 p.m.; Sunday, 8:00 a.m.-5:00 p.m.  
Instructors: Nick Reed Jr. & Tommy Oxentine

LOSS CONTROL  
16 Hours  
This course covers both Salvage and Overhaul and is designed to cover the indicators of structural instability while finding areas of hidden fires. In addition, the course covers scene preservation and property loss techniques.

Saturday & Sunday 8:00 a.m.-5:00 p.m.  
Instructor: Ronnie Rector

EMERGENCY MEDICAL CARE  
14 Hours  
This course will provide the student with basic first aid skills including, but not limited to: hemorrhage control, burns, poisons, basic airway management and AHA CPR certification for Healthcare Providers.

Saturday, 9:00 a.m.-5:00 p.m.; Sunday, 8:00 a.m.-4:00 p.m.  
Instructor: Staff

RESCUE (*Full PPE Required*)  
20 Hours  
Because of the dynamics of today’s fire service, firefighters respond to all types of emergencies. A firefighter’s first priority is life safety. This course is designed to teach firefighters’ methods of victim removal under various emergency conditions. Students will utilize various tools and equipment for gaining access to victims, and perform proper carries and drags for different injuries and situations. Students will also learn to assist with special rescues such as MVA's, trench, elevator, and collapse rescue.

Friday, 6:00-10:00 p.m.; Saturday & Sunday, 8:00 a.m.-5:00 p.m.  
Instructor: Clay Greene

WATER SUPPLIES (*Full PPE Required*)  
20 Hours  
Water is the most common extinguishing agent. This course will cover both municipal and rural water sources and their distribution systems. Students will discuss the different types of pressure as well as causes of increased friction loss. Hydrant flow calculations and proper maintenance requirements will be demonstrated. Students will participate in drafting procedures, tanker shuttle operations and relay pumping.

Friday, 6:00-10:00 p.m.; Saturday & Sunday, 8:00 a.m.-5:00 p.m.  
Instructor: Chris Rhodes

SPRINKLERS (*Full PPE required*)  
16 Hours  
Students will become familiar with various types of automatic sprinkler systems and their applications as well as operation of the systems and stopping the flow of individual activations to prevent unnecessary water damage.

Saturday & Sunday, 8:00 a.m.-5:00 p.m.  
Instructor: John Campbell

FIRE & LIFE SAFETY PREPAREDNESS  
12 Hours  
This course will present students with requisite knowledge about fire prevention and life safety initiatives that firefighters utilize during personal and group interactions with the citizens we serve.

Friday, 6 p.m.- 10 p.m.; Saturday, 8 a.m.- 5 p.m.  
Instructor: Charles Autrey
Firefighter Certification Courses

BUILDING CONSTRUCTION
16 Hours
This course will describe the basic structural characteristics of the different types of building construction. The firefighter will be able to identify the general fire behavior expected with each type of building construction, including the spread of fire and the safety of the building, occupants, and firefighters. Indicators of building collapses will also be covered.

Saturday & Sunday, 8:00 a.m.-5:00 p.m.
Instructor: Brian Carswell

HEALTH AND WELLNESS
8 Hours
Firefighting activities are physically and mentally strenuous. This course will inform and prepare students with skills necessary to maintain a well and healthy lifestyle.

Sunday, 8:00 a.m.- 5:00 p.m.
Instructor: Charles Autrey

SAFETY AND SURVIVAL
(*Full PPE Required Including SCBA*)
16 Hours
This course focuses on firefighter survival techniques and on identifying factors that place firefighters in dangerous situations.

Saturday & Sunday, 8:00 a.m.-5:00 p.m.
Instructor: Ryan Heavner

HAZ MAT LEVEL I RESPONDER
38 Hours
(*Course begins at 8 a.m. on October 13*)
This course meets requirements for OSHA 1910.12 and NFPA 472 2013 edition. It is designed to develop, thorough competence for those who will respond to a hazardous material incident. It will also help to develop competencies to respond in a safe manner, help reduce the number of accidents and injuries, and help prevent exposure to hazardous material incidents. Students will use the DOT guidebook in a practical exercise. This will be a fast-paced course and will require outside reading. The course will identify basic options, requirements, and limitations of the methods used to control, contain, or confine a hazardous material incident. Practical exercise will be included.

Thursday & Friday, 8:00 a.m.-8:00 p.m.
Saturday & Sunday, 8:00 a.m.-5:00 p.m.
Instructor: Mike Tinkham

MAYDAY
(*Full PPE Required Including SCBA*)
8 Hours
This course will identify simulated situations and parameters that constitute a Mayday call. Students will learn techniques and recommended guidelines for handling and functioning in a Mayday situation.

Friday, 1:00-10:00 p.m.
Instructor: Ryan Heavner

TR VEHICLE: STABILIZATION EXTRICATE
(*Full Rescue PPE Required*)
12 Hours
This course will present the Technical Rescuer techniques and methods to safely stabilize different types of vehicles. The Rescuer will also utilize various hand and power tools to safely and effectively extricate patients.

Friday, 6:00-10:00 p.m.; Saturday, 8:00 a.m.- 5:00 p.m.
Instructor: Reid Roper

EMERGENCY VEHICLE DRIVER
(*D/O Certification*)
20 Hours
This course will present the knowledge, skills, and ability to satisfy the NFPA 1002 Fire apparatus Driver/Operator Professional Qualifications 2009 Edition. Students must pass the practical and written exam with a score of 70% or above to receive certification.

Although not required, participants are encouraged to bring apparatus they will be driving at their respective agencies. Students must be at least 18 years of age and have a valid NCDL to participate.

Friday, 6:00-10:00 p.m.;
Saturday & Sunday, 8:00 a.m.-5:00 p.m.
Instructor: Staff
Wildland Firefighter
Red Card Training
36 Hours
(*Course begins at 8 a.m. on October 13*)
This course covers S-130, S-190 and L-180 NWCG Standards containing objectives of entry level Firefighter skills to identify hazards, safety, fireline construction and fire control measures. The course also covers wildland fire behavior and factors that affect fire development.

Thursday & Friday, 8:00 a.m.- 7:00 p.m.;
Saturday & Sunday 8:00 a.m.- 5:00 p.m.
Instructor: Chris Moss

Chief 101
8 Hours
This class consists of several programs that together will satisfy the 9S inspection criteria as specified by the North Carolina Administrative code. The primary objective of the course is to inform current and future chief officers of:

- the various aspects and complexities surrounding the operations and organization of North Carolina fire departments.
- understanding the basis of the procedures that govern a rating and response inspection.
- the various aspects of the response rating system as adopted in North Carolina.
- recognizing various sources of information that will assist departments in preparing for an inspection.

Emphasis will be placed on ratings and inspections, NFIRS reporting, prevention and grant programs, basic line-of-duty death information, financial considerations, and an overview of the various expectations of being a chief officer.

Saturday, 8:00 a.m.-5:00 p.m.
Instructor: Rick Davis

Chief 101-15 Update
4 Hours
This course will satisfy the 9S inspection criteria requirements of update training specified by the North Carolina Administrative Code for those who have the original Chief 101 training prior to January 2015.

Class Schedule: Saturday, 8:00 a.m.- 12:00 p.m.
Instructor: Rick Davis

Introduction to Pumps
(D/O Certification)
15 Hours
This course will present the knowledge, skills and ability to satisfy JPR’s within NFPA 1002 Standard for Fire Apparatus Driver/Operator Professional Qualifications, 2009 Edition. Topics of the course will include safe and effective operations and understanding of pump valves, gauges, and pump anatomy. Students must successfully pass the practical and written exams with a score of 70% or higher to receive certification.

Saturday, 8:00 a.m.-5:00 p.m.; Sunday 8:00 a.m.-4:00 p.m.
Instructor: John Stroup

Basic Pumps Operations
(D/O Certification)
24 Hours
This course will present the knowledge, skills and ability to satisfy JPR’s within NFPA 1002 Standard for Fire Apparatus Driver/Operator Professional Qualifications, 2009 Edition. Topics of the course will include pump set-up, priming, and drafting, along with understanding lift and friction loss. Students must successfully pass the practical and written exams with a score of 70% or higher to receive certification.

Friday, 1:00-10:00 p.m.; Saturday, 8:00 a.m.-5:00 p.m.;
Sunday 8:00 a.m.-4:00 p.m.
Instructor: Jamie Hollowell

Traffic Incident Management (TIMS)
7 Hours
This course is designed to establish the foundation for and promote consistent training of all responders to achieve the three objectives of the TIM National Unified Goal: responder safety; safe, quick clearance from incidents; and prompt, reliable, interoperable communications. This course will familiarize fire and rescue personnel with the purpose of the Strategic Highway Research Program 2 (SHRP 2) and National TIM (Traffic Incident Management) Responder Training Program and how it relates specifically to North Carolina. Participants will learn to recognize and identify the dangers encountered by emergency responders working in or near traffic.

NOTE: TIMS is not a certification. TIMS is required for Technical Rescuer, Fire Fighter and Driver Operator certification effective 1/1/2016.

Sunday, 8:00 a.m.-4:00 p.m.
Instructor: Robin Triplett
Firefighter Certification Courses

Foam Fire Streams  
(*Full PPE Required Including SCBA*)  
8 Hours

This course will provide the firefighter with understanding of various types of foam to include uses, application techniques and appliances used for application.

Friday, 8:00 a.m.-5:00 p.m.  
Instructor: ESTC Staff

TR: Anchors & Mechanical Advantage Systems  
15 Hours

This certification-related course in anchors and mechanical advantage systems (MAS) will present the Technical Rescuer (TR) with the correct techniques for the setup, operation, and function of various multiple-point anchor and portable anchor/lifting platform systems used during rope rescue incidents.

Equipment: Appropriate gloves, work boots, helmet, safety glasses, and suitable work clothes.

Saturday, 8:00 a.m.-5:00 p.m.; Sunday, 8:00 a.m.-4:00 p.m.  
Instructor: ESTC Staff

TR: Victim Management  
16 Hours

This certification-related course in victim management will offer the Technical Rescuer (TR) practical applications for correctly gaining access to, stabilizing the environment, packaging, and removing patients for a ropes rescue incident. All the elements of anchors, fixed rope systems, lowers and raises, and high lines are employed.

Equipment: Helmet, eye protection, clean gloves.

Saturday & Sunday, 8:00 a.m.-5:00 p.m.  
Instructor: ESTC Staff

Instructor I  
26 Hours

This course covers the knowledge, skills, and abilities needed to train others in fire service operations. Topics include planning, presenting, and evaluating lesson plans, learning styles, use of media, communication, and other related topics.

Upon completion, students should be able to meet the requirements of the Fire Instructor Level 1 objectives from National Fire Protection Association (NFPA) 1041. This is a NC Fire and Rescue Commission certification course.

Textbook Required: Fire and Emergency Services Instructor (8th edition), ISBN (13-9780879394417), IFSTA. This book can be purchased through the NC Society of Fire Rescue Instructors (www.ncsfri.org)

Instructor I Certification Requirements as of July 01, 2016:

- The instructor candidate must be at least 21 years of age.
- The instructor candidate must have a high school diploma or GED.
- Complete the OSFM Approved Instructor I course.
- The instructor candidate must be certified a minimum of three (3) years as a FF II, TR, or FLSE.

Friday, 8:00 a.m.-7:00 p.m.;  
Saturday & Sunday, 8:00 a.m.-5:00 p.m.  
Instructor: Wes Lail

Instructor II  
38 Hours

This course covers the knowledge, skills, and abilities needed to train others in fire service operations. Topics include planning, presenting, and evaluating lesson plans, learning styles, use of media, communication, and other related topics.

Upon completion, students should be able to meet the requirements of the Fire Instructor Level 2 objectives from National Fire Protection Association (NFPA) 1041. This is a NC Fire and Rescue Commission certification course.

Textbook Required: Fire and Emergency Services Instructor (8th edition), ISBN (13-9780879394417), IFSTA. This book can be purchased through the NC Society of Fire Rescue Instructors (www.ncsfri.org)

Instructor II Certification Requirements – July 01, 2016

- The instructor candidate must be at least 21 years of age.
- The instructor candidate must have a high school diploma or GED.
- Complete the OSFM Approved Instructor II course.
- The instructor candidate must be certified a minimum of three (3) years as a FF II, TR, or FLSE.

Thursday & Friday, 8:00 a.m.-8:00 p.m.;  
Saturday & Sunday, 8:00 a.m.-5:00 p.m.  
Instructor: Norman Staines
Firefighter Certification Courses

TR Horizontal Systems
12 Hours
This certification-related course in horizontal systems will present the Technical Rescuer (TR) with the correct techniques for the setup, operation, and function of horizontal systems for use at a rope rescue incident.

Friday, 6:00-10:00 p.m.; Saturday, 8:00 a.m.-5:00 p.m.
Instructor: ESTC Staff

TR Lowers and Raises
12 Hours
This certification-related course in lowers and raises will present the Technical Rescuer (TR) with the correct techniques for the setup, operation, and function of various types of high angle raising and lowering operations involving litters during a rope rescue incident.

Friday, 6:00-10:00 p.m.; Saturday, 8:00 a.m.-5:00 p.m.
Instructor: ESTC Staff

TR VR Large Vehicle Rescue
6 Hours
This certification-related course in large vehicle rescue will present the Technical Rescuer (TR) with the techniques required to mitigate large vehicle rescue incidents. The course will expose responders to scene hazards and scene stabilization techniques.

Sunday, 8:00 a.m.-3:00 p.m.
Instructor: ESTC Staff

EMT Refresher

EMT refresher
24 Hours
This EMT refresher course is open to EMTs of all levels currently credentialed in North Carolina and/or by National Registry of EMTs. It offers up to 24 hours of curriculum that adheres to North Carolina and NREMT guidelines. This refresher course is divided into 2- and 3-hour blocks. Students may attend any combination of topics or all of the topics. For more information, contact mwillis@wpcc.edu.

Instructors: STAFF

EMT-refresher class schedule

Friday
- 8:00-11:00 a.m. - Medical Emergencies (allergic reactions, drug overdose, water related emergencies)
- 11:00 a.m.-12:00 p.m. - Airway (assessment & management)
- 1:00-3:00 p.m. - Trauma Part 1 (trauma assessment, head & spine Injuries)
- 3:00-5:00 p.m. - Pediatrics Part 3 (trauma management)

Saturday
- 8:00-11:00 a.m. - Trauma Part 2 (chest & abdominal injuries, shock management)
- 11:00 a.m.-12:00 p.m. - Pediatrics Part 2 (assessment)
- 1:00-3:00 p.m. - Pediatrics Part 3 (trauma management)
- 3:00-5:00 p.m. - Breathing (assessment & management)

Sunday
- 8:00-11:00 a.m. - Cardiology Part 1 (cardiac compromise, cardiac arrest)
- 11:00 a.m.-12:00 p.m. - Pediatrics Part 4 (shock assessment & management)
- 1:00-3:00 p.m. - Cardiology Part 2 (post resuscitation care)
- 3:00-5:00 p.m. - Pediatrics Part 5 (delivery & post-delivery care)
Important Information

• Please send all registrations in by Thursday, October 6, 2016.
• Registration forms must be filled out completely and legibly (please print).
• Please write out your agency name in the “Department affiliation” section.
• Check either Paid or Volunteer.
• Check either State Agency or Local Agency.
• Student and Chief signature must be on all registration forms.
• Students cannot be officially enrolled in any course until all documentation and payment is received.
• Substitutions will be accepted for students who are unable to attend.
• Late registrations will be accepted if class size permits.
• Indicate 1st, 2nd and 3rd choices.

***** Western Piedmont Community College is a tobacco-free campus. *****

Fees

• Burke County Fire and Rescue College fee is $15.00 per person (non-refundable) for all participants.
• For Non-Emergency Personnel or Out-Of-State Participants, an additional registration fee of $70.00 per person for classes that are 1-24 hours in length and $125.00 for classes that are 25-50 hours in length is required.
• Mail ALL necessary and completed forms along with payment to:

   Western Piedmont Community College
   Business Office/Fire College
   ATTN: Hope McPeters
   1001 Burkemont Avenue
   Morganton, NC 28655

• You can also pay online using a credit/debit card. Visit wpcc.edu/firecollege for details.
• Make checks payable to Western Piedmont Community College
• Western Piedmont Community College’s policy regarding acceptance of checks:

   1. All checks must include a physical street address.
   2. Individual and company owned checks must include a drivers license number.
   3. All checks must include a phone number (work or home).
   4. Counter checks, credit card checks,and computer-generated checks will not be accepted.

For registration and payment questions, contact Karen Huffman at (828) 448-6037 or khuffman@wpcc.edu

For questions about courses and content, contact Michael Willis at (828) 448-6708 or mwillis@wpcc.edu
The following information is mandatory for ALL STUDENTS. IF THIS INFORMATION IS NOT PROVIDED, THE STUDENT CAN NOT BE REGISTERED FOR THE REQUESTED CLASS

Last Name: | First Name: | Middle Initial:

PUBLIC SAFETY AND TRAINING PROGRAMS

WPCC and/or the Compliance Office of the North Carolina Community College System reserves the right to ask for verification of fee exemption eligibility from the student and/or agency. If the information within this area is excluded, or not fully completed, the fee waiver will not be given and the cost of the class will be the responsibility of the student. If not paid, further registrations will be restricted until balance is paid in full.

Thank You Burke County Firefighters!

Your gift of the Burke County Firefighters Association Scholarship benefits firefighters and their families who are attending Western Piedmont Community College.

The Western Piedmont Foundation Board of Directors thank you for your generous contributions to this scholarship, your support of WPCC and your co-sponsorship of the Burke County Fire College.

WPCC Foundation Board of Directors
2017 Firefighter Academy

January 17-April 19
WPCC Emergency Services Training Center

APPLICATION DEADLINE: December 9, 2016

Train Close to Home in World-Class Facilities

Western Piedmont Community College’s Emergency Services Training Center offers you opportunities to train year-round. Our world-class facilities house the largest variety of live fire LP gas training props between Florida and New York along with a burn building and emergency medical training laboratory. The ESTC offers courses in basic skills, advanced topics, mandated training, and certification preparation.

Visit wpcc.edu/fire-rescue-emergency-management for a list of upcoming classes and to register.
WE SALUTE FIREFIGHTERS FOR THEIR SERVICE AND COMMITMENT TO TRAINING AND READINESS.

THANK YOU FOR ALL YOU DO!
