

Working For More Beautiful Western Piedmont

10/18/71

Saturday was a work day for faculty, staff, and students of Western Piedmont Community College who set out azaleas, holly, camelias, rhodendrons, and numerous small plants. These were purchased with approximately \$1,000 made available from the Western Piedmont Foundation. Flower beds were prepared and then the planting done — a job shared by approximately 50.

In addition all enjoyed a noon cookout. The big day was sponsored by the Building and Grounds Committee, the SCARED Club, and the Student Government Association. Plans were worked out by Harold Olesen, staff coordinator, and Dave Woodie, SGA president. Incidentally, the efficient man with the shovel is Dr. Gordon Blank, WPCC president. (Staff photo)
